An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claims 1-14, drawn to non-elected species, have been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with Laura J. Zeman on March 23, 2004.

In the specification, page 1, line 4, "January 17, 2001" has been changed to - - January 18, 2001 - - .

The following is an examiner's statement of reasons for allowance: Kopaciewicz (U.S. Patent No. 6,048,457), Valaskovic (U.S. Patent No. 5,997,746), and Camin (U.S. Patent No. 4,272,503) are considered to be the closest prior art because they disclose similar apparatus. The case has been allowed because the recited combination would not have been obvious from Kopaciewicz (U.S. Patent No. 6,048,457), Valaskovic (U.S. Patent No. 5,997,746), and Camin (U.S. Patent No. 4,272,503). It is noted that "low dead volume" and "high flow properties" are defined on page 63, lines 14-19 of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
